

# Top 20 Receivers List

Report run on: January 20, 2009 - 2:00 PM

Version 5.0

## User Selection Criteria

<b>Location:</b>	Kansas
<b>BR Cycle:</b>	2007
<b>Compared to BR Cycle:</b>	2005
<b>Number of Sites Limit:</b>	20

## Results:

Data meeting the criteria you selected follows.  
Total Pages: 2

## Report Description

This report is designed to identify facilities within the State which impact the State's hazardous waste receipt total and have significantly changed since the last reporting cycle. The user specifies the number of facilities to print (thus making the report useful for both large and small States). All received quantities refer to the received quantity in the National Biennial RCRA Hazardous Waste Report. Quantities are limited to wastes where the Handler is to be included in the National Report, the WR Form is to be included in the National Report, and the received amount for that WR Form is greater than zero.

## Report Information

Name: b\_top\_receivers.rdf  
Developed By: EPA Headquarters, Office of Solid Waste  
Deployed: May 2004  
Last Revised: September 2009
