Data meeting the criteria you selected follows.

Total Pages: 2

Total Handlers: 7

Report Description

This report will help identify corrective action orders that are not present in both the CM&E and corrective action modules, by identifying orders which address violations that require corrective action. The report lists handlers that have at least one formal enforcement action (200 or above) where the Corrective Action Component field (CA_COMPONENT) is checked "Yes" but for which there is no authority record with an Authority Type of "A" (consent order), "C" (consent decree), "D" (judicial decree), "J" (judicial order), "O" (operating permit), or "U" (unilateral order).
