

Selected RCRA Sites Universe List Report

Report run on: October 20, 2009 - 12:15 PM

Version: 5.0

User Selection Criteria

Location:	DISTRICT OF COLUMBIA	Group of IDs:	None Selected
Report Cycle:	None Selected	State District:	
Address:		Tons Generated:	None Selected
City:		NAICS Code:	
County:	None Selected	Zip Code:	
Non-Notifier:	None Selected		
Owner / Operator:			
Handler Universe:	None Selected		
Other Programmatic Universes:	CORRECTIVE ACTION WORKLOAD		
Waste Codes:	None Selected		
Source Codes:	None Selected		

Results

Data meeting the criteria you selected follows.

Total Pages: 3

Total Handlers 2

Report Description

This report lists all facilities that satisfy the user selection criteria, showing basic information about each facility. The report also shows the standard suite of handler universes. Each facility in the list can be drilled down to detailed information about a facility (RCRA Site Detail Report).

Report Information

Name:	siteuniv.rdf	Contact:	rcrainfo.help@epa.gov
Developed by:	EPA Headquarters, Office of Resource Conservation and Recovery	Tables Used:	hreport_univ5, bgm_basic, bwr_basic, bgm_waste_code, bwr_waste_code,
Deployed:	November 2002	Libraries:	bgm_onsite_treatment, howner_operator5, hnaics5, lu_state, hid_groups
Last Revised:	July 2009		none

Report run on: October 20, 2009 - 12:15 PM

List of Handler Universe Abbreviations

Transporter	Indicates that the facility is engaged in the off-site transportation of hazardous waste. ('Y' indicates that the facility is in this universe).
Recycler	Indicates that the facility is engaged in the recycling of hazardous materials.
Active Status	Indicates that the facility could be subject to the federal RCRA, Subtitle C or a state's authorized hazardous waste program. This definition has no legally enforceable or binding determination about the status of a particular site or the obligations of an owner or operator.
Commercial	Indicates that the facility is a commercial operator of transporting, storing and disposing of hazardous waste.
Destination Facility	Indicates that the facility treats, disposes of or recycles universal wastes on site. No minimum universal waste volume applies.
Importer	Indicates that the facility is engaged in importing hazardous waste into the United States from a foreign country.
Operating TSDF	Indicates that the facility is a Treatment, Storage or Disposal facility subject to any type of enforcement. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment)
Hazardous Secondary Materials	Indicates that the facility manages hazardous secondary material(s) (e.g. spent material, by-product or sludge) that when discarded, would be identified as hazardous waste.
Large Quantity Handler of Universal Waste	Indicates that the handler accumulates large quantities of federally regulated waste on site. The handler generates, in a calendar month, 1,000 kg (2,200 lbs.) or more of RCRA hazardous waste; or accumulates at any time, more than 1 kg (2.2 lbs.) of RCRA acute hazardous waste; or accumulates at any time, more than 100 kg (220 lbs.) of spill cleanup material contaminated with acute hazardous waste
Transfer Facility	Indicates that the facility transfers hazardous waste.
Federal Generator Status	Indicates the regulatory status of the site as determined by the quantity and/or toxicity of hazardous wastes generated, stored or accumulated over a specified period of time.
State Generator Status	Indicates the regulatory status of the site in view of implementing the State's "broader in scope" or "more stringent than" rules. Although an implementing State might use terms that differ for their generators these terms would be translated to match the Federal regulatory term.
Short Term Generator	Indicates that the facility is a short term or one time event generator and not generating from ongoing processes.
Mixed Waste Generator	Indicates that the facility is a generator or TSDF that handles waste mixed with nuclear source, special nuclear or by-product material.
Used Oil Fuel Marketer	Indicates that the facility markets used oil.
Used Oil Burner	Indicates that the facility disposes of used oil by burning.
Used Oil Processor	Indicates that the facility is a processor of used oil.
Used Oil Transporter	Indicates that the facility is a transporter of used oil.
Used Oil Transfer Facility	Indicates that the facility is involved in the storage of used oil so the oil can be transported by other handlers.
Used Oil Off-Specification Burner	Indicates the facility disposes of used oil by burning using special 'non-specified' methods.
Smelting, Melting, and Refining Furnace Exemption	Indicates that the facility with smelting, melting, and refining furnaces and processes hazardous wastes solely for metals recovery are conditionally exempt from regulation.
Small Quantity On-Site Burner Exemption	Indicates a facility that burns small quantities of hazardous waste in an on-site boiler or industrial furnace, in accordance with 40 CFR 266.108, is conditionally exempt from regulation for that activity.
