

## Generator Standards ICR Respondent Universe Estimates

Report run on: September 29, 2015 - 9:33 AM

Page 1

### User Selection Criteria

**Report Cycle:** 2013

### Report Description

This reports shows estimates based on the biennial report cycle selected, for various responses used for the Generator Standards Information Collection Request (ICR). The methodology for each respondent is presented below:

**Number of LQGs that are also TSDFs** 1) The site is included in the National Biennial Report (NBR); 2) the calculated generator status = 'L' (LQG) or 'E' (Episodic LQG), 3) the site managed waste on-site that was included in the NBR.

**Number of LQGs that are also federally-regulsted TSDFs:** 1) The site is included in the National Biennial Report (NBR); 2) the calculated generator status = 'L' (LQG) or 'E' (Episodic LQG), 3) the site managed waste on-site that was included in the NBR, 4) the most recent source record for the site indicates that the site is a federally-regulated TSDF.

**Number of LQGs that are also federally- or state-regulated TSDFs:** 1) The site is included in the National Biennial Report (NBR); 2) the calculated generator status = 'L' (LQG) or 'E' (Episodic LQG), 3) the site managed waste on-site that was included in the NBR, 4) the most recent source record for the site indicates that the site is a federally- or state-regulated TSDF.

**Number of LQGs that are also federal facilities:** 1) The site is included in the National Biennial Report (NBR); 2) the calculated generator status = 'L' (LQG) or 'E' (Episodic LQG), 3) the most recent source record for the site indicates that the site is either on federally owned land, federally owned, and/or federally operated.
