Receive Date: 01/01/2005

Report Description

This report shows estimates based on the most recent submission on or after the date provided, for various responses used for the Specific RCRA Wastes Information Collection Request (ICR).

The methodology for each respondent is presented below:

Number of LQHUWs 1) The most recent record for the site is on or after the date provided; 2) the site has at least one universal waste where they indicated that they had accumulated 5,000 kg or more.

Number of SQHUWs: This number is derived from the number of LQHUWs. Based on historical data, LQHUWs make up 9% of the universe and SQHUWs make up 91% of the universe. The calculation for this universe is ROUND (Number of LQHUWs / 9% * 91%).

Number of Universal Waste Destination Facilities: 1) The most recent record for the site is on or after the date provided; 2) the site indicated that it was a universal waste destination facility.

Number of Mixed Waste Generators: 1) The site provided a submission for the most recent Biennial Report cycle; 2) the site was included in the National Biennial Report; 3) the site indicated it was a mixed waste generator on this submission.

Number of Used Oil Transporters and/or Transfer Facilities: 1) The most recent record for this site is on or after the date provided; 2) the site indicated that it was a used oil transporter and/or used oil transfer facility

Number of Used Oil Processor and/or Refiner Facilities: 1) The most recent record for this site is on or after the date provided; 2) the site indicated that it was a used oil processor and/or used oil refiner.

Number of Burner of Off-specification Used Oil Facilities: 1) The most recent record for this site is on or after the date provided; 2) this site indicated that it was an off-specification used oil burner.

Number of Used Oil Fuel Marketer Facilities: 1) The most recent record for this site is on or after the date provided; 2) this site indicated that it was a marketer who directs shipment of off-specification used oil to off-specification used oil burners and/or a marketer who first claims the used oil meets the specifications.

Number of Used Oil Facilities: 1) The most recent record for this site is on or after the date provided; 2) this site indicated that it is at least one of the following: used oil transporter, used oil transfer facility, used oil processor, used oil refiner, off-specification used oil burner, marketer who directs shipment of off-specification used oil to off-specification used oil burner, and/or marketer who first claims the used oil meets the specifications.
