## Results

Data meeting the criteria you selected follows.

Total Pages: 3

Total Handlers: 1

## Report Description

This report lists facilities that notified they are managing hazardous secondary material but did not indicate they have financial assurance as required by the 2008 Definition of Solid Waste final rule. Data is based on the most recent HSM information for the user-selected period. Under the DSW rule, three types of facilities are required to have financial assurance under the rule: reclaimers receiving HSM from offsite, intermediate facilities, and HSM generators importing and reclaiming material (facility codes 07, 08, and 11, respectively). Facilities which have submitted a stop notification are excluded.

**Actual Tons** - Total actual tons of HSM managed during the most recent odd numbered year

## Report Information

Name: hsm\_fa\_n.rdf  
Developed by: EPA Headquarters, Office of Resource Conservation and Recovery  
Deployed: April 2010
