Data meeting the criteria you selected follows.

Total Pages: 2

Total Handlers: 8

Report Description

This report does two things: 1) it counts the number of HSM initial notifications, re-notifications, and stop notifications within a user-selected period (as indicated on the Addendum to the Site ID form); and, 2) it lists the facilities that have notified they are managing hazardous secondary material under the 2008 Definition of Solid Waste final rule but that did not have an EPA ID number when they notified.

Estimated Tons - Total estimated tons of HSM to be managed over the next 12 months

Actual Tons - Total actual tons of HSM managed during the most recent odd numbered year

Mgmt. Start Date - HSM management start date, as reported on the initial notification
