

# Missing OP270 (Permit Expiration) Events Report

Report run on: August 17, 2009 - 8:18 AM

Version: 5.0

---

## User Selection Criteria

**Location:** Alabama

## Results

Data meeting the criteria you selected follows.

Total Pages: 2

## Report Description

This report shows all facilities that have at least one operating unit where the latest legal/operating status is PIOP or PMOP, but the unit does not have a corresponding OP270 (permit expires) event.

The report shows the handler ID, handler name, unit sequence number, unit detail sequence number, effective date, and legal/operating status code.
