Report Description

This report lists only those units for which it is unclear if they have approved controls in place. The legal and operating status codes selected in this report **usually** indicate a unit has met the goal. The selected units, however, do not have an accomplished date, so verification is needed in order to count them as an accomplishment. The legal and operating status codes selected in this report are: ISCA, ISCP, ISSF, ITCA, ITCP, ITSF, LICA, LICP, LISF, NNCA, NNCP, NNSF, PTCP, PTSF. If the Units or Date Range criteria are selected, then only units that match that criteria will be checked. The unit-specific status is produced in this detailed report, and can be run for the GPRAs Baseline Permits Universe and/or the GPRAs Baseline Renewals Universe. The report can be run on a State, Regional, or National basis. The effective date will show the actual date of the OP205 event. If there is no OP205 event, then it will show the actual date of the OP200 event. Finally, if there is no OP200 event, then it will show the effective date of the legal/operating status (Unit). Whichever date is shown will be indicated in parentheses.
