

Report on the Environment
OECD Worksheet SW-4A: Management Practice

Report run on: August 19, 2015 - 3:09 PM

Version: 5.0

User Selection Criteria

Report Data: Management Practice

Report Description

This report shows the quantity of hazardous waste managed, as reported on either the GM onsite form or WR form, for the following management categories: Incineration with Energy Recovery (H050, H061), Other Recovery Operations (H010, H020, H039), Physico/Chemical Treatment (H070, H071, H073, H075, H076, H077, H082, H083, H100, H101, H103, H110, H111, H112, H120, H121, H122, H123, H124, H129), Biological Treatment (H081), Incineration without Energy Recovery (H040), and Landfill and Other Dposit into or onto Land (H131, H132, H134, H135). Waste streams are included in this analysis if: 1) the facility was marked for inclusion in the National Biennial Report; and 2) the waste stream was marked for inclusion in the National Biennial Report.

The report shows short tons, metric tons (conversion factor: 1 short ton = 0.90718474 metric tons), and rounded metric tons. The report shows these quantities for each Biennial Report cycle that has been finalized since and including 2001.
